

F-Gas Regulations

The **Reasons**

Climate change
Global warming
Unstable Greenhouse gases
Motor vehicle a/c systems contribute to all 3 when not handled correctly

The **Law**

Regulation EC842/2006 (EU517/2014) and Directive 2006/40/EC Aims are to control leakage of HFC R134a and to phase out its use April 2008 - Commission Regulation EC No. 307/2008 published its minimum requirements for a refrigerant handling qualification These requirements were adopted by the IMI

Since 4th July 2010 only personnel possessing this qualification are legally qualified to take delivery, handle and recover fluorinated refrigerant gases

The **Solution**

We are pleased to be able to offer you in association with the **IMI**, a cost effective and convenient solution to meet the legal, mandatory requirement.

Our refrigerant handling assessment has the flexibility to be carried out at your premises, using your facilities and equipment.

Advantages are:-

- Minimal staff down time
- No travel or accommodation costs
- Minimum disruption
- Minimal workload interference
- Delivery of assessment arranged to suit you

The assessment lasts approximately 1 to 1.5 hours per candidate.

The cost of the Assessment includes:-

- An assessors to visit site
- Course learning material
- IMI Online Assessment
- IMI Registration fees
- IMI Certification fees
- IMI Paper certificate
